

Aura Cacia®

pure aromatherapy

Purely a Brand You Can Trust

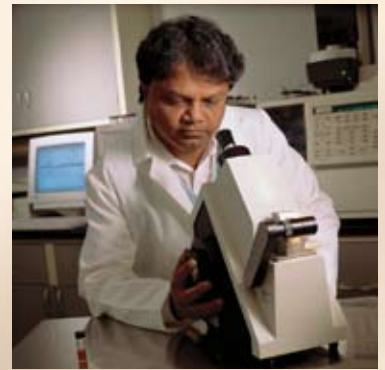

Having been in business for more than 25 years, we know about the wide range of uses for essential oils. We also know that you expect the essential oils you buy to be pure and unadulterated. Unfortunately, increased demand for essential oils has caused some suppliers to “extend” their products through adulteration. This is why we test our essential oils at every step of the process. We are proud to offer essential oils just as you would expect them to be...100% pure.

Unlike our competition, Aura Cacia® essential oils are guaranteed to be free of the following:

- Adulterants
- Solvents
- Propylene Glycol
- Extenders
- Synthetic Compounds
- Diethyl Phthalate

How can we be so confident about the purity of our aromatherapy products? Our in-house testing process confirms:

- Specific Gravity
- Refractive Index
- Chiral Gas Chromatography
- Optical Rotation
- Gas Chromatography / Mass Spectrometry (GCMS)
- Sensory Evaluation

Other brands claim purity, Aura Cacia® proves it.

Purity = Effectiveness

Only pure essential oils deliver true aromatherapy benefits, and we refuse to carry anything less.
