

Essential Oils Come from All Over the World—

but the leading supplier of natural aromatherapy products is located in Urbana, Iowa.

Aura Cacia's Urbana plant has been turning raw materials into premium aromatherapy products since April 2007.

Aura Cacia® finds its raw materials everywhere from Washington's Yakima Valley (peppermint) to the Ukraine (lavender) to Western Australia (sandalwood). In many cases, we have developed personal relationships with our suppliers, and work with them to ensure that their farming and distillation techniques make sense for us, them, and the environment.

Only 100% pure essential oils both smell great and deliver aromatherapy benefits. Aura Cacia can guarantee the purity of its essential oils and personal care products, because we subject every batch of every oil to a comprehensive battery of tests including gas chromatography.
